

Ronald McDonald House of Danville "Grab-a-Tab" Story

Once a beverage or a product can is opened, the little tabs used to do the trick are often forgotten and discarded. A tool once vital to fulfilling its cause is suddenly rendered useless and ends up at the bottom of a garbage pail.

That little tab, however, is indispensable to the Ronald McDonald House of Danville. The Ronald McDonald House relies on its collection and recycling to help finance the many programs it offers, as well as the day-to-day operation of the House.

Through the Ronald McDonald House's "Grab-a-Tab" program, local schools and organizations all over Pennsylvania are grabbing the tabs from beverage, soup and dessert cans. It doesn't matter what color the tab is just grab them and deliver them to the House or a designated recycling center. The tabs are weighed and cashed in by the pound.

The "Grab-a-Tab" program is a community friendly fund-raising program. It allows people of all ages to join in the effort of providing a "Home-Away-from-Home" to children with cancer and other serious illnesses and their families.

Aluminum tabs can be dropped off at:

The Ronald McDonald House - P.O. Box 300 - Danville, PA 17821
